Westpac Place is comprised of two connected towers providing approximately 74,000 square metres of commercial office space, 2030 square metres of service and retail areas, 864 car parking spaces and a landscaped urban park. The buildings were developed by Leighton Properties and constructed by Leighton Contractors.

Through its subsidiary Infocus (a 50/50 owned business with Mirvac), Leighton Contractors provides facilities management services to Westpac Bank's flagship headquarters in Sydney.

The 12 year facilities management contract for this facility includes:

- Customer and stakeholder management
- Management preventive and reactive maintenance
- Subcontractor management and asset management
- Cleaning, pest control, waste management
- Security
- Project Management
